## FCC INFORMATION

### FCC Part 15

This equipment has been tested and found to comply with the requirements for a Class B digital device under Part 15 of the Federal Communications Commission (FCC) rules. These requirements are intended to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Re-orient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**WARNING:** Changes or modifications to this equipment not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

# INTRODUCTION

Congratulations on purchasing the Slick MP3 Music & Video Player.

This manual contains important safety information and correct operation instructions.

Before using the player, read this manual thoroughly and keep it for future reference.

## Copyright Information

Trademarks and trade names used in this instruction manual are owned by their respective companies or organizations.

Unauthorized duplication of any recordings whether downloaded from the internet or made from audio CDs is a violation of copyright laws and international treaties.

The making of unauthorized copies of copy-protected material, may be an infringement of copyrights and constitute a criminal offence. This equipment should not be used for such purposes.

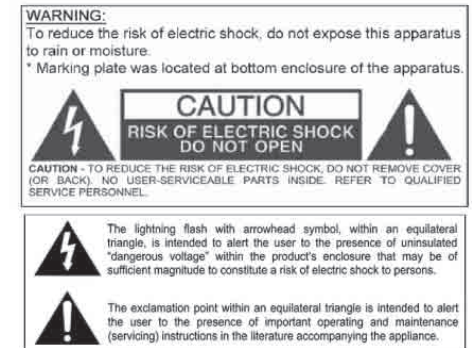

# IMPORTANT SAFETY PRECAUTIONS

Always follow these basic safety precautions when using your player. This will reduce the risk of product damage and personal injury.

- Do not disassemble, repair or modify the player by yourself. Refer servicing to qualified personnel.
- This device contains a built-in battery, do not dispose of in fire.
- In the event that the battery is leaking, do not handle the device with your bare hands. Contact the service center for help since the liquid may remain in the player. If your body or clothes had contact with the battery liquid, wash it off thoroughly with water. Also, if some liquid gets into your eyes, do not rub your eyes but immediately wash them with clean water, and consult a doctor.
- Keep the player away from direct sunlight and any direct heat source.
- Do not expose the unit to rain or moisture.
- Do not use the player in dry environments to avoid static.
- Never apply heavy impact on the player, or place it on a magnet.
- Route the USB cable so that people and pets are not likely to trip over it.
- Disconnect the USB cable from the computer when you do not use the player for a long time.
- Clean only with a dry cloth. Make sure the player is turned off before cleaning. Do not use a liquid cleanser.
- Be sure to back up your files to avoid data loss.

## Precautions in using the headphones

- Do not use the headphones while driving an automobile or riding a bicycle. It is dangerous, and against the law. To avoid an accident, do not turn up the volume of the headphones too high while walking.
- It is not recommended that you use the headphones at a high volume for an extended time, as this may cause hearing damage.

# CONNECTING TO A COMPUTER

## System requirements

You computer system must meet the following specifications:

- Pentium 200MHz or above
- Microsoft Windows 2000/ME/XP/Vista
- USB port supported

## PC connection

In order to enjoy the multimedia capabilities of your **MP3 Player**, you have to first copy your favorite files from your PC to it's internal memory. Connect your **MP3 Player** to the computer using the included USB 2.0 cable. The device will be detected automatically without installing any driver. Once detected, you can read/write to the device's memory just as if you where using a regular disk drive.

Make sure your computer is powered on, and follow the steps below to connect the player to your computer.

1. Plug the larger USB connector of the USB cable into the USB port on the computer.
2. Plug the other end (small) of the USB cable to the player.
3. The computer system detects "New hardware" and starts to install the driver automatically. Wait for the system to finish the installation.

When it has finished, "**Slick MP3**" will be created in "**My Computer**".

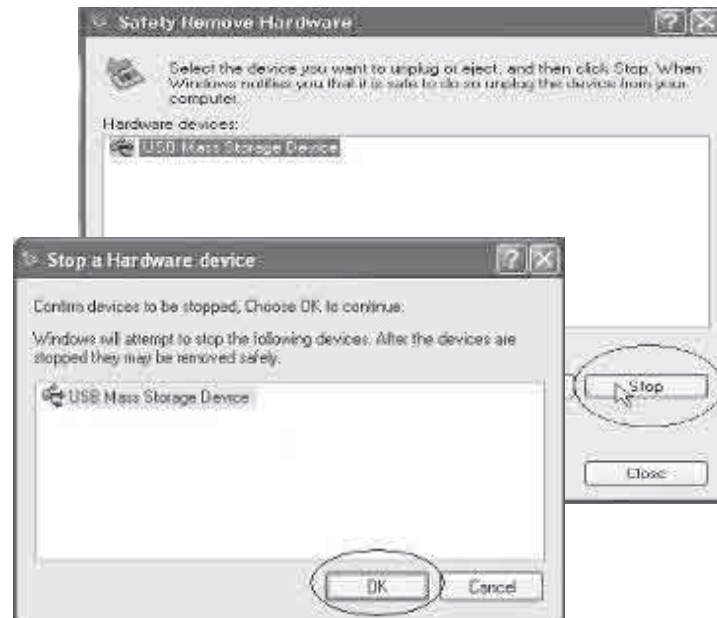

**Important:** To avoid any data loss, always perform a safe USB device extraction before disconnecting the USB cable from the PC.  
In Windows XP, for example, you can find the safe extraction icon in the task bar next to the system clock.

---

## Disconnecting the USB cable

After completing the file transfer, please disconnect the USB cable the following way:

1. Double click the green arrow **"Safely Remove Hardware"** in the task bar on the bottom right of the window.
2. Select **"USB Device"** and click **"Stop"**.
3. When the **"Stop a Hardware device"** appears, click **"OK"** to disconnect the USB mass storage device, and unplug the player safely.

---

## CHARGING THE BATTERY

Your **MP3 Player** has an integrated rechargeable Li-ion battery. It is recommended to fully charge the player before using it for the first time. Recharge the battery by connecting the player to a computer using the included USB 2.0 cable.

Charging time is between 3-5 hours, depending if the player is powered off or working. To keep the battery in good condition, we recommend not charging it for more than 8 hours.

Battery level indication:

 - Indicates that the battery is full.

 - Indicates low battery, and the player should be recharged as soon as possible.

### Important:

- *Fully charge the player before you use it for the first time, or when you haven't used it for a long time.*
- *Charge the player immediately when the  low battery indicator is displayed.*
- *Do not over charge or discharge the player. Over charging or discharging will shorten the battery life.*
- *The battery could be over discharged if the player is not used for a long time (over three months). To avoid over discharge, fully charge the player every three months and always keep the voltage of the battery above 50 %.*

---

# BASIC OPERATION

## Turning on/off

- To turn on the player, press and **HOLD** the [  /  ] button until the display turns on.
- To turn off the player, press and **HOLD** the [  /  ] button until the display turns off.

## Adjusting the volume

- Press the [  ] button to increase the volume.
- Press the [  ] button to decrease the volume.

## Hold: Lock/Unlock buttons

This feature prevents you from accidentally pressing the buttons while using the player on the move.

- To lock all buttons of the MP3 player, slide the [**HOLD**] switch in the direction of the arrow.
- To deactivate the lock function, slide back the [**HOLD**] switch.
- If this window appears when transferring files, check that the [**HOLD**] switch is not on the Hold/Lock position.

## Resetting the player

If a malfunction of the player occurs, take a metal pin, or use the end of a paper clip and press it into the **RESET** hole to re-initialize the system of your player.

# TRANSFERRING MEDIA FILES TO THE PLAYER

The **MP3 Player** is capable of storing, displaying, and playing your favorite music, pictures, and video.

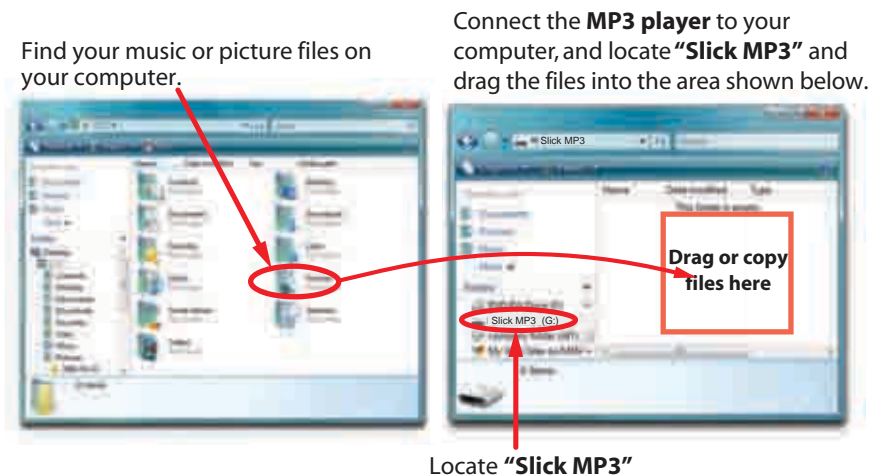

## Transferring media to the player

To transfer media from your computer, perform the following steps:

1. Connect the MP3 player to the USB port of your computer.
2. Open "Windows Explorer" or "My Computer", and locate "Slick MP3".
3. Select the files on your computer, and simply move it into "Slick MP3" in the usual way (drag-and-drop, copy-and-paste). After copying is completed, the data will be available on the MP3 player.

*We recommend using **Windows Media Player** to organize and transfer music and pictures to your player. For more information regarding **Windows Media Player**, please refer to the **Quick Start and Media Transfer Guide**, or the included CD.*

**Note:** Please do not disconnect the USB cable during loading, it may cause malfunction of the player and the files.

- Press the reset hole with a metal pin to re-initialize the system of the player

### My computer is not detecting the MP3 Player

- Try disconnecting and then re-connecting the MP3 Player to your computer
- There is a USB mass storage devices recognition issue with Windows Vista acknowledged by Microsoft. A solution is available in the Service Pack 1 which may be downloaded from Microsoft’s website

### I cannot display my .jpg files

- Many digital cameras and image editing software add hidden data to the .jpg files. This data can prevent your MP3 from loading the images. Try to eliminate them by saving the file with another name
